Education

Ph.D. in Journalism and Media, The University of Texas at Austin, USA, 2018–2022

- Committee: Iris Chyi (Chair), Min Kyung Lee, Natalie Stroud, Tom Johnson, Wenhong Chen
- Dissertation: Machine heuristic and systematic information processing: A dual processing model of news perceptions in the era of algorithms

M.A. in Journalism, Peking University, China, 2016–2018

- Thesis: The development of Chinese automated journalism

B.A. in Journalism, Huazhong University of Science and Technology, China, 2012–2016

B.A. in English (Dual Degree), Wuhan University, China, 2012–2016

Research Interests

My research interests lie at the intersection of communication and human-computer interaction. My work has examined (a) the influence of algorithm-driven technologies such as automated journalism and misinformation detection algorithms on people's attitudes and news consumption behaviors; (b) the political bias in news coverage through NLP techniques; (c) whether automated systems promote or jeopardize democracy.

Professional Experience

(Forthcoming) Assistant Professor, Northeastern University, 2023 Fall

- Assistant Professor in the School of Journalism in the College of Arts, Media, and Design with a joint appointment in the Khoury College of Computer Sciences at Northeastern University.

Postdoctoral Fellow, Stanford University, 2022–2023

- Co-advised by Professor Jeff Hancock and Professor Michael Bernstein and affiliated with Stanford Social Media Lab and Stanford HCI Group.
- Affiliated with The Program on Democracy and the Internet (PDI), jointly based at the Center on Philanthropy and Civil Society (Stanford PACS) and the Cyber Policy Center (CPC) at Stanford University. PIs: Professor Nathaniel Persily, Professor Rob Reich, and Professor Francis Fukuyama.
- Funded by The Program on Democracy and the Internet (PDI) and Stanford Institute for Human-Centered Artificial Intelligence (Stanford HAI).

Research Associate, The University of Texas at Austin, 2020–now

- Human–AI Interaction Lab directed by Professor Min Kyung Lee, School of Information at The University of Texas at Austin.
- Center for Media Engagement (CME), Moody College of Communication at The University of Texas at Austin.

Publications

My work generally appears in mass communication journals and top-tier AI and HCI venues.

The Association for Education in Journalism and Mass Communication (AEJMC) Mid–winter Conference, The Communication Technology Division, March 1–2, the University of Oklahoma, Norman, Oklahoma, the United States.

16. **Jia, C.**, Yuan, Y., & Wang, Z. (2017). Readability analysis of Chinese and English automated news. International Communication Association (ICA) International New Media Forum, Panel 2: News Production in the Digital Age, November 11, Shanghai, China. (**Top Paper Award.**)
17. **Jia, C.** (2017). The development pattern of WeChat accounts of printed media in Zhejiang province: based on empirical research on *Urban Express*, *Qianjiang Evening News*, and *Hangzhou Daily*. International Symposium on Chinese Newspapers, Panel 2A, June 1 –2, Hong Kong, China.

Grants

1. UT Austin Good Systems Graduate Student Misinformation Grant

“Designing algorithmic nudge to reduce inadvertent COVID–19 misinformation sharing on social media”, \$7,000. Students: Anubrata Das, **Chenyan Jia**, and Shivam Garg (*alphabetical order); Supervisor: Professor Min Kyung Lee, School of Information.

2. UT Austin Misinformation & AI Good Systems Research Initiative

Awards and Honors

Harrington Dissertation Fellowship for 2021-2022, The University of Texas at Austin, 2021.

AAAI-21 Outstanding Paper Award: Special Track on AI for Social Impact, The Thirty–Fifth AAAI Conference on Artificial Intelligence (AAAI 2021), 2021. [[Press](#)]

University Graduate Continuing Fellowship for 2021-2022, The University of Texas at Austin, 2021.

The *Dallas Morning News* Graduate Fellowship for Journalism Innovation, School of Journalism, Moody College of Communication, The University of Texas at Austin, 2018.

The Maxwell McCombs Graduate Student Award for Research Publishing, Jesse H. Jones Centennial Chair in Communication Emeritus, Moody College of Communication, The University of Texas at Austin, 2022, 2020, 2022.

Will H. Mayes Scholarship, School of Journalism Graduate Scholarship Committee, Moody College of Communication, The University of Texas at Austin, 2020.

Professional Development Awards, The Graduate Student School, The University of Texas at Austin, 2020.

Thomas Thompson Award in Journalism, School of Journalism Graduate Scholarship Committee, Moody College of Communication, The University of Texas at Austin, 2019.

Top Paper Award, The International Communication Association (ICA) International New Media Forum, 2017.

Teaching Experience

Teaching Assistant

Advanced Studies in Behavior and Social Media, Stanford University, Fall 2022.

- Teaching team member. A project-based course focused on advancing graduate research on behavioral approaches to social media.

Digital Storytelling Basics, Teaching Assistant, The University of Texas at Austin, Spring 2020, Fall 2019, and Spring 2019

- Lab instructor and guest lecturer: teaches video and audio shooting and editing techniques on Adobe Premiere Pro CC and Adobe Audition CC.

The U.S.–China Tango: Technology, Media, and Future, The University of Texas at Austin, Teaching Assistant, Fall 2020

- A university signature course that covers policies and practices of Artificial Intelligence, Big Data, and Cloud Computing in the U.S. and China.

Social Media Journalism, Teaching Assistant, The University of Texas at Austin, Summer 2019

- A web-based course which introduces the top social media platforms. Students learn how to engage audiences, drive traffic and market themselves and their organizations.

Data, Privacy, and You, Teaching Assistant, The University of Texas at Austin, Fall 2018

- Lab instructor and guest lecturer: taught the emergence of data science and big data.

Guest Lectures

- *Interventions in the age of hyper-partisan misinformation*, for course Advanced Social Media Research: Digital Media Interventions, Stanford University, October 17, 2022.
- *How AI is used in visual storytelling*, for course Visual Storytelling, Northeastern University, April 6, 2022.

- *Use CloudResearch/MTurk to conduct online experiments*, for course Quantitative Research Methods in Communication, North Dakota State University, February 16, 2022.
- *How to use CloudResearch/MTurk to conduct online experiments*, for course Introduction to Research Methods, The University of Texas at Austin, September 30, 2021.
- *How artificial intelligence and automation are impacting journalism*, for course Digital Storytelling Basics, The University of Texas at Austin, April 2, 2019, October 29, 2019, April 7, 2020, October 27, 2020, and April 1, 2021.
- *A new conversation: How artificial intelligence are impacting our life*, for course The U.S.–China Tango: Technology, Media, and Future, The University of Texas at Austin, October 21, 2020.
- *How automated journalism inspires selective exposure*, for course Media Effects and Politics, The University of Texas at Austin, April 28, 2020.
- *The Snowden leaks: A complex relationship with privacy*, for course Data, Privacy, and You, The University of Texas at Austin, November 20, 2018.

Invited Talks

-
- *Examine hyper-partisan (mis)information with human-centered AI*, Polarization and Social Change Lab, Stanford University, February 7, 2023.
 - *The evolving role of AI in political news consumption: The effects of algorithmic vs. community label on perceived accuracy of hyper-partisan misinformation*, Cyber Policy Center Fall Seminar Series, Stanford University, November 1, 2022.
 - *Examine algorithmic bias with human-centered approaches*, College of Arts, Media and Design, Northeastern University, April 6, 2022.
 - *Algorithmic decisions and algorithmic bias in the era of Artificial Intelligence*, School of Journalism and Communication, Peking University, April 8, 2022.
 - *Algorithmic bias: Does automated journalism reduce bias?* The Edward R. Murrow College of Communication, Washington State University, February 8, 2021.

Service

-
- Reviewer for *Asian Journal of Communication*, 2023.
 - Reviewer for *Journalism Studies*, 2022.

- Reviewer for *ACM CHI Conference on Human Factors in Computing Systems (CHI 23)*, 2022.
- Reviewer for *Internet Research*, 2022.
- Reviewer for *New Media and Society*, 2022, 2021, 2020.
- Reviewer for *Media and Communication*, 2022, 2020.
- Reviewer for *Communication Research and Practice*, 2020.
- Reviewer for *the 69th Annual International Communication Association Conference (ICA 2019)*, 2018.
- Student leader, Digital Media Research Program (DMRP), Moody College of Communication, The University of Texas at Austin, 2020–2021.
